3. You have to submit three copies of your master thesis to the contact person. Please also send an electronic version (pdf file) to the email-address of the master program: m-datascience@lmu.de. Please do not include your postal address, your email-address and your matriculation number in the electronic version of your thesis.

Please pay attention to § 14 of the MSc Data Science examination regulations (*Prüfungsordnung*, 18 July 2017).

4. Please fill out the usage rights agreement for your master thesis even if you do not agree to a publication of your thesis. Please submit this agreement together with the copies of your thesis.
