German language course

Living in Germany often requires knowledge of the German language, which is used not only in everyday life but also in the scientific and professional areas.

As part of the Elite Network of Bavaria, the Data Science master program offers all students the opportunity to get financial support for German language courses startingfrom level A2. Note: A1 level is not reimbursed.

To apply for reimbursement, you need to fulfill the following requirements:

- You have to be **immatriculated** at LMU Munich (Data Science master
- program). **Prior to the start of the language course** you need to fill in the application form and send it to Dr. Michael Windmann.
- **After finishing the course**, fill in the German Language Course Reimbursement and send it together with the course certificate and the invoice to Dr. Michael Windmann.

Language courses can only be reimbursed **after** successful completion of the course. Each student may not spend more than **800 EUR** during the entire period of studying. This means, a student may apply for reimbursement of more than one course as long as the cost does not exceed 800 Euro.

Students are allowed to choose any German language courses they want. Among themost popular in Munich are:

- LMU International University Club Munich (IUCM)
- Sprachschule. Deutsch Als Fremdsprache (DKFA)
- Münchner Volkshochschule
